

# Mega-star Reward Chart

Earn a great treat while you practise using graphs and scales.

## You will need:

- Scissors
- Glue
- Mega-star Reward Chart (page 2)

## What to do

1. Decide with an adult what you need to do to earn stars. It could be tidying your room, doing your homework, helping clean the house or being kind to someone.
2. Agree on the rewards. A daily reward could be a treat to eat or some TV time. A reward at the end of the week could be a trip somewhere, a visit to a special person or a contribution towards something you're saving for. Write these on the chart.
3. Agree how many stars you need to earn in a day and in a week to get your reward.
4. When you earn a star, cut one out and stick it on your reward chart. (Check with an adult before using scissors.)

# Mega-star Reward Chart

To earn stars  
I will ...

For \_\_\_ or more stars in one day, the reward will be: \_\_\_\_\_

For \_\_\_ or more stars in one week, the reward will be: \_\_\_\_\_
