

## Back to school BINGO

Can you complete five across in any direction?

I had a go.	I listened carefully to my teacher.	I got something wrong but that's OK. I tried again.	I helped tidy up.	I completed an activity by myself.
I learned a new word.	I helped someone.	I played a new game in the playground.	I got myself ready for school.	I read every night.
I went to bed on time.	I played a board game at home that involves counting.	Free space.	I came to school ready to learn.	I asked my teacher about their holiday.
I made a new friend.	I told somebody or something about my day. (Dogs and teddies want to hear too!)	I practised my times tables.	I had fun.	I recommended a book to a friend.
I kept trying when I found something hard.	I was polite around school. I said "please" and "thank you".	I started reading a new book.	I finished my homework.	I listened when other people were talking.
