

# Counting coins

1. Find one of each of the coins below or cut them out.

2. What is the value of each coin?
3. Order the coins from least to greatest value.
4. What is the value of all the coins together?

$$\text{2p coin} + \text{10p coin} + \text{5p coin} + \text{20p coin} + \text{50p coin} = \square$$

Do you have enough money  
to buy a toy costing 85p?
