

Crack the code

Each of these plants and animals is colourful for a special reason. Draw lines to match the reasons to the right animals.

Some reasons link to more than one animal.

Answers

Coral snake: I am colourful to warn off predators. My bright colours show I am poisonous.

Peacock: I am colourful to be seen. I use my colourful tail to attract females.

Tiger: I am colourful to hunt. My stripes keep me hidden in long grass so I can sneak up on my prey.

Flower: I am colourful to be seen. I am bright so bees can see me and collect my pollen.

Flamingo: I am colourful because of the food I eat. Eating shrimp makes me turn pink!

Poison dart frog: I am colourful to warn off predators. My bright skin tells them I am poisonous.

Berries: I am colourful to be seen. I am red so birds can find me and eat me.

Caterpillar: I am colourful to hide. I am green to blend into leaves.
