

### Labelling: Super Challenge 3

#### Life Cycles and Plants

1 Labels are sometimes used to make sure that pictures and diagrams are clear and easy to understand. Look at the life cycle of a flower below. Then look up the words in the *Oxford First Illustrated Science Dictionary* and correctly label each picture.

germinate

seed

seedling

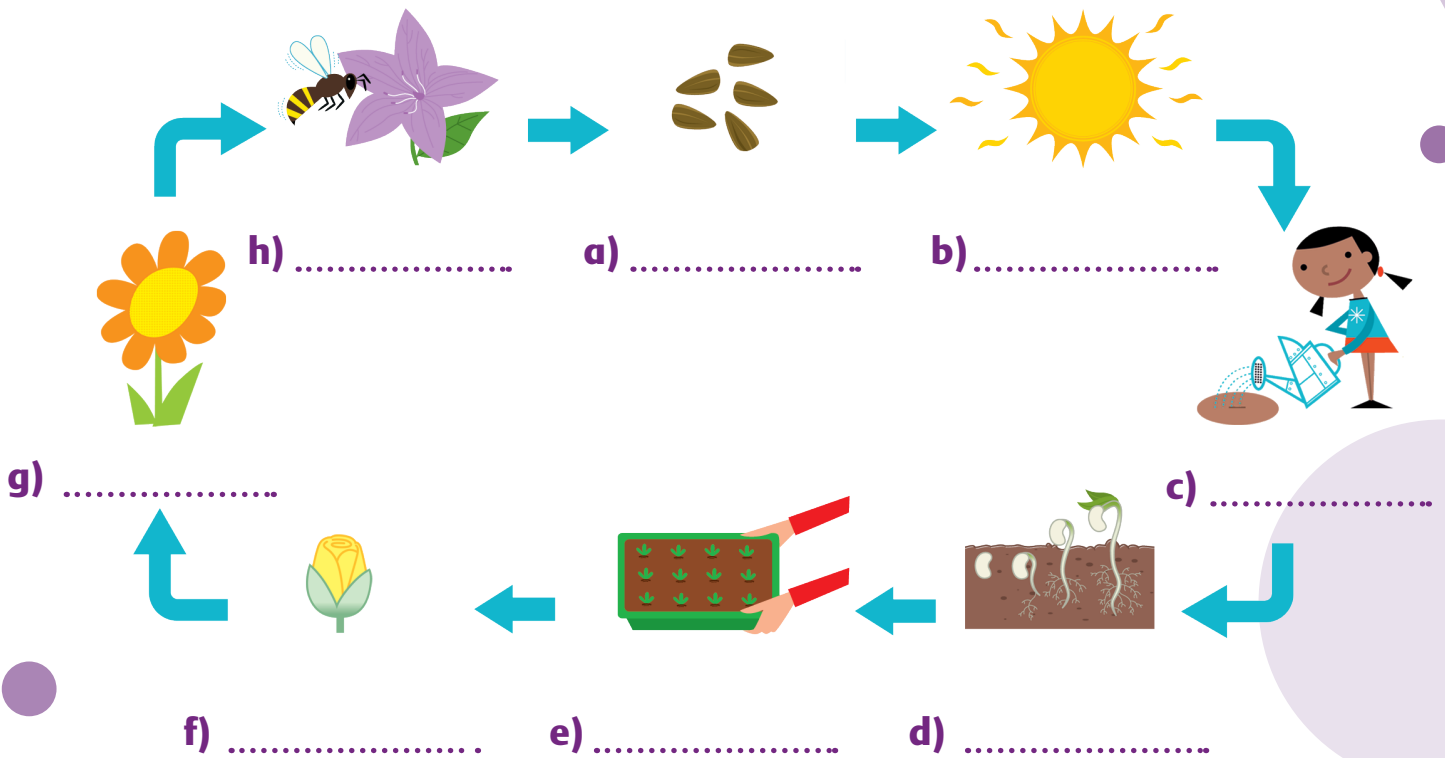

flower

bud

sun

water

pollen

2 Use the dictionary to help you write a short explanation of the life cycle of a plant.
