

Find the matching totals

Cut out the cards and shuffle them. Spread them out face down. Turn over two cards. If they show the same total, keep the cards. If they don't, turn them back over.

Doubles dominoes

Cut out the cards along the dotted lines only. You should have 10 dominoes. Match the question 'What is double ...' with a Numicon piece or numeral answer.

8	What is double 6?	12	What is double 3?
6	What is double 10?	20	What is double 1?
2	What is double 9?	18	What is double 8?
16	What is double 7?	14	What is double 2?
4	What is double 5?	10	What is double 4?
